| Seats          | 6 Adults                             |
| Construction   | Carbon fiber                         |
| Pressurization | 6.5 psi                              |
| Engine         | Pratt & Whitney PT6A-67A             |
| Horse Power    | 1200-HP                              |
| Propeller      | Hartzell Four-Blade Full Reversing   |
| Avionics       | Garmin G1000 3-Screen Avionics Suite |

**DIMENSIONS**

|                                |            |
|--------------------------------|------------|
| Length                         | 35.8 ft    |
| Wingspan                       | 43.0 ft    |
| Height                         | 12.5 ft    |
| Wing area                      | 203 sq ft  |
| Cabin length                   | 15.0 ft    |
| Cabin width                    | 4.6 ft     |
| Cabin height                   | 4.9 ft     |
| Empty weight                   | 4,440 lbs  |
| Maximum takeoff weight         | 7,500 lbs  |
| Maximum payload with full fuel | 1,120+ lbs |

**PERFORMANCE**

|                                    |                                  |
|------------------------------------|----------------------------------|
| Maximum cruise <sup>†</sup>        | 325+ KTAS                        |
| Economy cruise                     | 265 KTAS                         |
| Max ceiling                        | 34,000 ft                        |
| Time to climb                      | 15 min. to 34,000 ft             |
| Best rate of climb                 | 4,000 feet per minute            |
| Range maximum cruise*              | 1,385 NM (325 KTAS at 60 gal/hr) |
| Range economy cruise* <sup>†</sup> | 1,650 NM (265 KTAS at 40 gal/hr) |
| Takeoff distance                   | 1,600 feet (over 50' obstacle)   |
| Landing distance                   | 1,840 feet (over 50' obstacle)   |
| Fuel capacity                      | 288 gallons usable               |

\*ISA conditions - FL280 - no wind - 45 min reserve at max payload

<sup>†</sup> Results expected to improve based on E1000 performance enhancements

CERTIFIED\* E1000

\*Certification targeted mid-year 2015

FILL IT UP. GO THE DISTANCE.  
LEAVE NOTHING BEHIND.

### THE ULTIMATE OFF-ROAD VEHICLE

From urban city centers to remote backcountry airstrips, the versatile E1000 provides access to more airports than any other aircraft in its class. With power, performance, superior short field and slow handling capability, trailing link landing gear, and full reversing prop, Epic expands your horizons from the concrete jungle to the tropical jungle and beyond. Your choice. No sweat.

| MAXIMUM CRUISE | TIME TO CLIMB SL TO 34,000 | RANGE MAX CRUISE | RANGE ECO CRUISE | PAYLOAD (FULL FUEL) |
|----------------|----------------------------|------------------|------------------|---------------------|
| 325+ KTAS      | 15 Minutes                 | 1385 NM          | 1650 NM          | 1120+ lbs           |

### ELEVATE YOUR EXPECTATIONS

The Epic E1000 all composite, carbon fiber aircraft redefines the standard of excellence in the personal aviation marketplace. With slingshot acceleration, jet-class speed of more than 325 knots, climb rate of 4000 feet per minute, range of 1650 nautical miles, and payload that comfortably accommodates six adults and 120 pounds of luggage with full fuel, why compromise? Enjoy exceptional luxury, versatility, and major ramp appeal. For business. For pleasure. For a lifetime of adventure.

### PREPARE TO BE IMPRESSED

The E1000 returns the art of flying to what it should be: intuitive, engaging, and fun. The all-glass flight deck masterfully combines ergonomics and avionics, with large-format EFIS panels, advanced situational awareness, consolidated workflow, and engine monitoring tools all within easy reach. The cockpit and cabin are spacious and elegant, with six reclining leather seats, technologically advanced soundproofing, extended head and legroom, and ample interior storage. Step into Epic and you'll never want to leave. Offered at a price you simply won't believe. That's Epic.
